

Environmental Protection Policy

EffectiveDate: 07/01/2025

ApprovedBy: Management , Peak International TradingCo LLC

Purpose

This policy defines the environmental commitments required from suppliers to minimize environmental impact, support sustainability, and protect biodiversity throughout operations. It integrates these principles into our supply chain to promote continuous environmental improvements.

Scope

Applicable to all suppliers and partners involved in the production and distribution of goods and services related to our business operations.

1. Legal Compliance

- Suppliers must **comply with all environmental laws** and regulations and **maintain required permits**.
- Cooperate with inspections and audits to ensure compliance.

2. Resource Efficiency & Waste Minimization

- **Maximize resource use efficiency**, minimize waste, and prioritize recycling and reuse of materials.
- **Reduce energy, water, and material consumption** throughout production processes and focus on products with minimal environmental impact.
- **Minimize waste production** using the “reduce, reuse, recycle” approach.

3. Energy & Emissions

- **Implement energy-efficient practices** and reduce greenhouse gas emissions.
- Shift to **renewable energy sources** and reduce carbon footprints.
- Report energy use and set targets for **continuous energy reduction**.

4. Sustainable Product Development

- Develop products that prioritize **environmentally friendly materials** and long product lifecycles.
- Incorporate **sustainability** into product design and development processes.

5. Biodiversity Protection

- **Minimize impact on biodiversity**, ecosystems, and natural habitats.
- **Promote positive environmental contributions** such as habitat restoration or conservation efforts wherever possible.

6. Pollution Prevention

- **Prevent pollution** (air, water, soil) and minimize harmful emissions and waste.
- Implement systems to **monitor and reduce pollutant releases** into the environment.

7. Continuous Improvement & Reporting

- Maintain an **environmental management system** and report on environmental performance regularly.
- Set measurable targets for sustainability and **track progress**.

8. Education & Awareness

- Provide **training** on environmental responsibility and encourage sustainability throughout the supply chain.
- Foster a culture of **sustainability** within the organization.

9. Collaboration & Stakeholder Engagement

- Engage with **local communities and authorities** to drive joint environmental efforts.
- **Communicate openly** with stakeholders about environmental performance and improvements.

10. Review & Compliance

- The policy will be **reviewed annually** for effectiveness.
- Non-compliance may result in **corrective actions** or termination of the business relationship.
